

EPDM Rubber Sheetting – Industrial Grade

EPDM Rubber Sheetting is a synthetic elastomer, commonly used in external and outdoor applications thanks to the excellent resistance to ageing, oxidisation, ozone, U.V. rays, water and adverse environmental conditions. The material surface is watertight, provides good resistance to abrasion and performs well when in contact with chemicals such as alkaline, diluted acids and ketones. EPDM does not have good oil resistance.

Physical Property	Values
Material	SBR/EPDM 20% Polymer
Surface Finish	Both sides cotton print
Colour	Black
Hardness	65° Shore A ± 5°
Working Temperature	-20°C / +80°C
Tensile Strength	5 MPa
Elongation at Break	260 %
Specific Gravity	1.35 ± 0.05 g/cm ³

Thickness	Dimensions roll	Article Code
1,5 mm	1,20 x 20 m	5021500120
3,0 mm	1,20 x 20 m	5023000120

Version: EPDM 2024.04.01.02
