### Safety-tape / Standard

Our standard safety-tape provides excellent levels of grip on smooth surfaces. This tape is suitable for use on dry surfaces in both industrial and domestic environments. The low profile minimizes the risk of tripping and the pressure sensitive adhesive backing makes it easy to apply. Safety-tape adheres to clean, dry surfaces without wrinkling, curling or tearing, guaranteeing durability.

article code	colour	width (mm)	roll length (m)
31101705	black	25	18,3
31101708	black	50	18,3
31101710	black	100	18,3
31101708FY	fluorescent yellow	50	18,3
31101708GR	grey	50	18,3
31101708BL	blue	50	18,3

article code	colour	dimensions (mm)
31101715	black	150 x 610

## Safety-tape / Hazard

Safety-tape hazard provides excellent levels of grip on smooth surfaces and draws attention to hazardous areas like stairs and loading docks. The low profile minimizes the risk of tripping and the pressure sensitive adhesive backing makes it easy to apply. Safety-tape adheres to clean, dry surfaces without wrinkling, curling or tearing, guaranteeing durability.

article code	colour	width (mm)	roll length (m)
31101705BY	black / yellow	25	18,3
31101708BY	black / yellow	50	18,3
31101710BY	black / yellow	100	18,3

article code	colour	dimensions (mm)
31101715BY	black / yellow	150 x 610

### Safety-tape / Aqua

Safety-tape aqua ensures an effective non slip flooring, yet has a smoother surface for walking bare foot on and to prevent damage to material and wet suits. This tape is ideal for use on wet areas like bathroom flooring, swimming pools and boats.

article code	colour	width (mm)	roll length (m)
31101755T	transparent	25	18,3
31101758T	transparent	50	18,3
31101755W	white	25	18,3
31101758W	white	50	18,3

### Safety-tape / Conformable

Conformable safety-tape has a special aluminium foil backing. Due to this backing the tape is ideal for use on irregular surfaces like chequer plate or surfaces with bolts or screws. The tape is easily applied and adheres to clean, dry surfaces without tearing or curling.

article code	colour	width (mm)	roll length (m)
31101820	black	50	18,3
31101820BY	black / yellow	50	18,3
31101820OR	orange	50	18,3

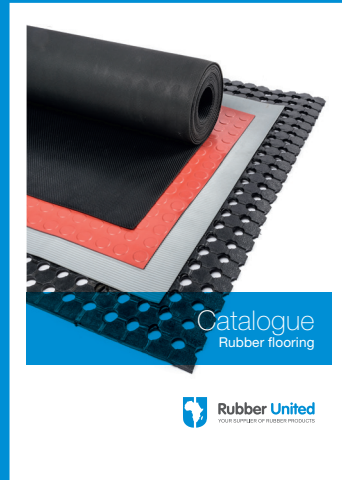

## Safety-tape / Conformable

In case of a power out it is of utmost importance that areas like exits and staircases remain clearly visible. During daytime, glow in the dark tape functions like standard safety-tape. In the dark, the tape lights up and areas are illuminated well enough to find exits and draw attention to hazardous areas.

article code	colour	width (mm)	roll length (m)
31101812GL	glow	50	18,3
31101812BGL	black / glow	50	18,3
